

Cardinal Wealth Management Red Bird Opportunity Strategy

As of 12/31/2020

Investment Objective

The Cardinal Wealth Management Red Bird Opportunity Strategy seeks short and long-term growth by investing across various sectors, industries, market capitalizations, and countries.

Strategy Overview

The Cardinal Wealth Management Red Bird Opportunity Strategy has the flexibility to pursue prime opportunities, regardless of sector, industry, country, and/or market capitalization. The fund utilizes equities, options, and structured notes and therefore may be subject to higher volatility and the potential of losses. The strategy can be long, short, or neutral on the market and therefore may not be fully invested at all times. The fund has the flexibility to acquire companies of all market caps, both US and international. We use three themes; 1) undervalued growth expectations, 2) turnarounds, and 3) unrecognized asset value.
